The lack of control over visitors and field use has created a scenario where ever larger groups of unauthorized users are showing up and disrupting the activities of the teams that are authorized to use the fields. My young children are in ayso and during many practices the coaches are having to push out groups of up to 12 teens and adults who are walking into the facility and using the spaces reserved for the teams. These groups are only growing in size over time as they realize that the city does not enforce any rules at the facility. This also resulted in a homeless man interrupting my son's soccer game this fall. If the city continues to take a laissez-fair approach to its facilities these issues will continue to grow and put residents and children at risk. My ask is that the city take these recent issues serious and review/enhance both existing policies and enforcement of any policies before a serious incident occurs. Thanks for your time.
