Subject: El Segundo Blvd.

Hi all, I am running to express some shock over the fact there has been an open trench on the corner of El Segundo Blvd. and Douglas for about 3 weeks now. A good construction management plan should've had this opened and closed quickly given how important this intersection is.

I would strongly encourage getting this closed out to base ASAP as it is highly disruptive to traffic and dangerous given how many children walk through it on their way to school.

I would like to voice my tremendous frustration at the poor traffic management here. It strikes me there's a lot that could be done to make this smoother. For example, why is there a portable toilet shutting down the left turn lane in El Segundo Blvd and Douglas? Shutting down the left turn lane when the rest of the street is impacted is an incredibly poor choice.

Thanks,
Daniel
