Subject: Plunge Update

Good morning,

I just heard from a friend that the plans for the plunge are up for approval at the next meeting. I also understand that the pool itself will not be able to be used to host aquatics competitions. While I'm sure this has been frustrating for council as I know this has dragged on for years, I am seeing a lot of concerned El Segundo residents that would really like to see a pause and evaluation of the site for an outdoor pool. Those sound like very valid concerns and I hope the council will take a beat and listen to these concerns and reevaluate what we are doing here.

I understand the sentiment that these things have been set in motion by prior council members, but I hope that doesn't stop each current member from hearing what the community has to say and really considering it.

I look forward to a productive discussion on Tuesday and sincerely hope the council will hold off on approving this very large expenditure until this alternative is explored further.

Thank you,
Noah Farrell
