**Subject: Code Enforcement Complaint new construction on 400 block of Virginia st**

Greetings!

New construction on 400 block of Virginia st. Corner of Virginia and Holly. Building site specifically the pedestrian walkways are very unkempt with litter, nails, pieces of metal and just general garbage from crews lunches. Tarp hanging on the alley between Concord and Virginia.

My main concern is the continuous amount of nails of all sizes found on the alley and street. My husband and myself have been picking them constantly. Last draw was on this Saturday when I had to walk in front of our truck to clear the alley so we could drive to our address and put our large items there for Edco. There was a handful of nails again. I threw most back to the construction site but kept a selection for the picture. This construction site is a hazard for pedestrians especially at night.
