Subject: Exemption from 2 hour parking on Indiana St

Council members,

I manage the property at 403 Indiana St and the 2 hour parking on the East side of Indiana is displacing many of my tenants from parking near the building. Our property only has 1 parking space per unit. Many of our renters have at least 2 cars and some have work vehicles in addition to their personal vehicles. I continue to get complaints from tenants and have asked them all to also write to the council expressing their concerns. I realize that this is a pilot program and will be reviewed at the end of November. I hope that this feedback will help.

Thank you,
